Glossary of Words and Terms Used

10-4 = police code for understood, your message is received

10-76 = police code for on the way, en route.

11-7 = police code for a prowler.

affect = to produce a mental change or reaction.

AMS = American Mortuary Society.

ambrosia = food of the gods.

Amos = brave and strong.

Anubis = the Egyptian god of embalming who leads the dead to judgment.

apocrypha, apocryphal = **1.** works of possible unknown authorship or doubtful origin, **2.** secret, forbidden, or hidden knowledge or information, **3.** works not included, stolen, or prohibited according to spiritual consult in a major collection of other historically related works.

apostasy = to abandon or ignore a belief in a principle, faith, religion, or cause.

armastation = an unchallenged and unforgiving religious judgment followed by torture with fire and burning to death.

ascension = **1.** to rise above the social clutter and noise enough to see over it and become enlightened, **2.** to arrive in heaven following a biblical type of resurrection.

ascien = a frightening presentation of unknown or magical powers.

aspergillum = an instrument used to sprinkle holy water.

atheist = **1.** a person who rejects religious claims that a god or gods exist, **2.** a person who can no longer legally experience armastation.

autopsy = the dissection of a dead human body looking for clues or a method of death and any drugs, alcohol, etc that may be related to the death.

Bahkatainka = the holy book of the Ecobrians.

Bathorian = the evil nemesis of Dionese.

Beblesan = *Bahkatainka* the wandering prophet, sooth sayer, and wise mareekna who died by forced drowning.

beca = a scholarly person well educated and versed in the sciences of biology, evolution, chemistry, and anatomy.

Belga = *Bahkatainka* an early proponent of the Ecobrian religious world view and thought to possibly be the first mareekna.

beseech = to beg or ask earnestly.

bilirubin = a yellowish bile found in small quantities in the blood and urine.

biogenesis = 1. life forms artificially produced from similar life forms using genetic transference, 2. new life forms arising naturally by evolution.

blasphemous = irreverent, profane, or contemptuous intentions toward a divinity.

cadaveric spasm = a rare muscle stiffening that occurs at the moment of death and continues into the period of rigor mortis.

cannula = a surgical angled hollow tube inserted into an artery for injecting embalming fluid.

casket = a coffin

Casper's Law = a dead body left in the open air decomposes twice as fast as a body left underwater and decomposes eight times faster than if buried underground.

chapel = the place of service in a funeral home.

Clostridium perfringens = also called “dead disease” by morticians, it is a rod-shaped, spore-forming, gram positive, pathogenic, anaerobic bacteria with an extremely fast reproduction time and a quick motility, commonly causes food poisoning in the USA, and causes rapid gaseous disfigurement throughout in a dead human body.

corpsicle = mortuary slang for a cryogenically frozen dead human body.

cortège = the vehicles following in a funeral procession.

cremains = mortuary slang for the ashes of a human body after cremation.

cryogenics = 1. the science dealing with extremely low temperatures and the nature and properties of matter, 2. the freezing of a dead human in hopes of reviving them in the future as science knowledge progresses.

Daniel = God is my judge and my strength.

Dawn of Debacle = the beginning of a totally overwhelming and horrible change in society.

dead-beat country club = mortuary slang for a pauper cemetery often without any visible grave markings.

dead disease = mortuary slang for the rapid gaseous disfigurement of a dead human body caused by the bacteria *Clostridium perfringens*.

death factory = mortuary slang for a hospital.

debacle = a total overwhelming defeat, collapse, or failure.

decomp' = mortuary slang for a badly decomposed dead human body.

deity = a god or goddess.

dendritic cells = messengers between the adaptive and innate immune systems and the orchestration of the immune response in mammals.

desiccated = dry without moisture, to be completely dried.

Dionese = *Bahkatainka* God of the Ecobrians.

dirt nap = mortuary slang for in repose and buried, the eternal entombment.

disinter, disinterred = to exhume or to be dug out of the grave.

dismal trade = slang for a mortician's job.

disposition = to dispose of something by a certain method.

divination = to foretell the future by using cards, the occult, seance, or black magic.

Divination Cards = ancient occult card demonstration where four are drawn from a deck of thirty-six and witnessed in sequence for their predictions of the future. Numeric sequences can indicate warning, advice, or fortune from within a prediction.

divinity = a god, or supreme power, or deity.

doctor of grief = slang for a mortician.

Drilda = the evil spirit who comes out at night from under the bed and brings children bad dreams.

dyspnea = shortness of breath.

ecchymosis = the exit of blood from a vessel into the surrounding tissues causing discoloration, a bruise.

Ecobrian, Ecobrians = an ancient religious anti-embalming sect who burned their dead and saved their ashes in urns underground.

egress = 1. to leave or exit, 2. the door leading to the outside.

E.L.V. = eternal life virus

emancipation = to be released from servitude and bondage.

embalmination = 1. a specialized embalming procedure that enables the dead to come back to life, 2. the living result of this type of embalming.

ephemeral = transient, a short amount of time.

epigraph = a quote or passage placed at the beginning of a book or chapter to introduce a theme.

Erick = one who is unique and alone.

erudite = very educated and scholarly, having a vast knowledge.

facies hippocrates = the final facial expression of death characterized by a pinched nose with the mouth and eyes partially open.

fish-head = a person who is overtly or annoyingly Christian.

floater = mortuary slang for a dead body found in water.

forensic = specialized training in scientific and medical methods for the investigation of a possible crime involving death.

formaldehyde gray, embalmer's gray = the skin color and tone of a rigidly embalmed body from using a fluid with a much higher than necessary formaldehyde index.

formalin = a water solution containing up to 50% formaldehyde and often part wood alcohol.

genetic drift = an evolutionary change in gene frequency over time resulting in bad, neutral, or beneficial mutations.

genetic sequence = the microscopic long-chain biochemical code-like information found in RNA and DNA that determines the particular characteristics and qualities of an organism.

gospel = good news, a testimony believed to be true.

gug = an exclamation of sickening disgust.

gurney = a fold-able stretcher or cot on wheels used in a funeral home first call car, ambulance, or hospital.

Harimeg = A geographical area located between the middle and far east thought to be where the Ecobrians originated.

Helen = a hot flaming torch, a bright shining light or flame.

hemolytic hemoptysis = the expulsion of blood hemoglobin into the surrounding tissue and fluids because of cell wall bursting.

homicide = murder, manslaughter.

hybrid evolution = 1. to forcefully increase the speed of natural evolution for any given mixed hybrid virion, cell type, or organism, 2. to gather enough genetic code into a homogeneous working RNA or DNA sequence for introduction into a dead cell or organism, 3. to combine fractions of RNA or DNA to produce a mixed hybrid type of virion, cell, or organism that reproduces rapidly with beneficial genetic drift.

hybrid speciation = the hybrid of two different species leading to yet another new specie that is sexually isolated from the parents.

hybrid vigor = a phenomenon resulting from hybridization in which the offspring display more strength, speed, resistance, size, etc. than the parents.

hypothesis = an unproven idea or supposition, a hunch.

incarnation = a person or thing as an embodiment or representation of a concept, form, or formulation.

insipid = to have low value, tasteless, boring.

interred, internment = to be buried.

jaundice = a condition of the yellowing of eyes, skin, and urine because of an increase in bile pigments (bilirubin) not sufficiently broken down and excreted by the liver.

J-J on a stick, Jesus on a stick = mortuary slang for a Catholic crucifix inserted inside a casket for a viewing and visitation.

Joshua = satisfied.

Julian = one who is always youthful.

Kenzo-oz = *Bahkatainka* a Japanese wise man who traveled west in search of new knowledge and philosophies to later become a follower of the Ecobrian religion, a mareekna, and teacher.

labyrinth = **1.** a walking structure used for occupying the left hemisphere of the brain so the right hemisphere can be used more freely as in problem solving and creativity, **2.** a maze, **3.** a perplexing situation or state of affairs.

last-responder = mortuary slang for a mortician.

ligature = a type of thread or wire used in embalming and surgery.

lipid = fats and other similar water insoluble chemicals.

Lobinan = *Bahkatainka* The mareekna who preached the evils of embalming, especially of the ultra rich pharaohs and their followers.

lucrative = producing great profit or wealth.

Lukman = 1. the holy perpetual cremation fire of the Ecobrians, 2. a person who has the ability to predict the future from bone pain, 3. the 31st sura in the Qur'an named after the wise man (Luqman).

Malkurst = 1. a bad or evil curse, 2. a gruesome and morbid slowly creeping change of events, 3. a fiendish blasphemous oath or promise.

marbleton = mortuary slang for the Catholic section of a cemetery because of religious idols and statuary.

mareekna = 1. the Ecobrian theologian and teacher closest to Dionese and creation, 2. a high priest of the Ecobrian religion.

matriculation = to enroll into an institution or school.

melancholy = to be gloomy or sad.

memory picture = an easy-on-the-eye perfectly embalmed and dressed body in (usually) an expensive casket ready for viewing and burial.

modernity = recent or present times representing the latest forms, styles, or ideas.

morbid = gruesome and horrible.

mortuary = a place where dead bodies are stored before final disposition, a funeral home.

Nameran = *Bahkatainka* the mareekna responsible for the spreading of the Ecobrian religion into upper Egypt and around the Mediterranean area. It is thought he preached the anti-embalming movement during the time of rulers Scorpion and Elephant.

necrochemistry = the scientific knowledge of the general changes that occur in a dead body over time, Casper's Law, etc.

necromancy = communications with the dead as practiced in certain religions and many occults.

Nicholas = a conqueror who defeats by force.

Nigara = *Bahkatainka* 1. a mystical heavenly place of spirituality, tranquility, and monetary riches, 2. a type of heaven found on earth.

opitulation = to help or give aid or assistance.

oppression = to be weighed down by stress caused by any one or more of multiple kinds.

oratory = the art, skill, and eloquence of an orator or public speaker.

palliative = to lessen or ease discomfort or pain without curing.

pathologist = a physician laboratory consultant and specialist educated and trained in the diagnosis and pathology of effects and causes of injury, disease, etc.

pharaoh = a ruler, monarch, or king of ancient Egypt.

plagiarism = the act of taking or stealing a story, idea, formula, or code and passing it off as one's own intellectual property.

platonic = a non-sexual relationship.

postmortem = after death.

postmortem caloricity = the natural warming of a newly dead body before it slowly cools to the ambient temperature.

postmortem ecchymosis (gravity dependent) = the escape and pooling of blood into lower surrounding tissues causing purple discoloration after death because of a lack of circulation and hemolytic hemoptysis.

preservation = to keep from rotting or spoiling.

prophecy = to predict something using any of various types of divine, mysterious, or evil guidance.

propitiation = to regain good will.

purge = mortuary slang for the slow “vomiting” or expulsion of body fluids from a dead human, usually from the mouth, but also from other orifices.

putrefaction, putrefied = decomposition resulting in foul smelling gases: putrecine, cadaverine, etc.

removal = mortuary slang for the placing of a dead body onto a gurney from the place of death and delivering it to the funeral home.

repose = to lie at final rest to appear sleeping, usually in a casket.

restorative art = the practice and skill of returning a poorly viewed dead body into a more acceptable memory picture.

revelation = an astonishing disclosure of future knowledge given by a supernatural human or agency.

rigor mortis = a slowly progressing muscle stiffness in death which fades over a few days.

sava = **1.** a person skilled in telepathic communication with gods, deities, or another sava, **2.** the telepathic skill acquired by embalminations.

séance = a meeting with a medium or spiritualist who attempts to communicate with the spirits of the dead.

Sedumat = *Bahkatainka* the mareekna believed to resurrect and fly away from his own cremation flames.

serendipity = beautiful or useful discoveries made by mistake.

shake-n-bake = mortuary slang for the cremation of a dead human body.

slop sink = mortuary slang for a square sink located at the foot end of an embalming table and used to collect blood and body fluids drained during the embalming process.

slumber = mortuary slang for the final repose and burial.

stir-plate = a laboratory instrument used to mix various liquids by spinning a magnet inside a vessel.

sulfalized = the point at which a person is totally fed up with an annoyance or disagreeable situation.

sutured = the repair with ligature by sewing together separated parts including skin, blood vessels, and various organs.

terlis = old term for a personal wiping cloth used in the bathroom; a toilet paper.

thalasting = to improve something to the point which makes it much better and/or lasts much longer.

theory = a scientific construct for a proven methodology.

thioglycolate broth = used for measuring the oxygen requirements of micro-organisms and separating out the strict anaerobes such as *Clostridium perfringens*.

tribulation = a life event causing sorrow, distress, loss, and suffering.

trocar = a long sharp surgical hollow tube inserted through the abdominal wall of a dead body as in cavity embalming.

urn = a type of cremation vase used to contain human ashes.

virion = the infectious form of virus found outside a host cell.

vogue = accepting of the general fashion and style of the time.

vortex = a suction forming whirlpool in liquids on a stir-plate.

VSA = vital signs absent.

windfall = a financial unexpected stroke of luck.

zeitgeist = a trend or feeling during a certain period of time.

zystrix = a source, shaman, or library disseminating secret or lost knowledge, art, or music.
